## TRANSIT AMBULETTE

Ford Transit Ambulette is a new product which was developed by Mobility Services in 2015. We offer a variety of floor plan options which allow you to mix and match seating to suit your specific needs. Up to three wheelchair securement positions can be arranged including the appropriate belt systems and locks. And, of course, the easiest access for all.

When our commercial customers purchase a Mobility Services para-transit conversion, they are also purchasing a passenger safety guarantee. Our Para-transit line complies fully with the Federal Motor Vehicle Safety Standards, Americans with Disabilities Act requirements, and Ford QVM standards. Reliability, safety and versatility - are part of the Mobility Services commitment to our customers!

### Features
